Matt, thanks. As discussed you will update the SDS by amending your PMN. We will watch for the amendment which, because the amended SDS will have no information claimed CBI, could be emailed directly to me in addition to being uploaded through CDX. By emailing me we may be able to move forward with signing the determination quicker. Thank you and [REDACTED] for your help and attention to this matter today.

Subject: RE: P-18-0125

Ex. 6 Personal Privacy (PP)

Client is asking why “§721.72 Hazard communication program” is not include in the SNUR?

Previously, EPA requested that client add the following, correct?

“TSCA: The manufacturer of this substance has established a Hazard Communication Program pursuant to OSHA regulations and adopted by EPA under 40 CFR 721.72.

EPA, in its review of this substance, has identified concern for:

Skin irritation

Eye irritation

Skin sensitization

Respiratory sensitization

Organ toxicity”

Given that EPA requested the text above, client expected that “§721.72 Hazard communication program” would be included in SNUR to have any future users implement it in the same manner as client and their customers will do. However, the SNUR in the pre-publication notice that appears on the EPA website does not include Hazard communication program. Please see the below URL. The case number is "P-18-125" and CFR citation is "§721.11260".

https://www.epa.gov/sites/production/files/2019-06/documents/prepubcopy_snurs-nprm_frl-9994-85_19t-0121_fr_doc_esigned_verified.pdf

The SNUR states “(j) Use other than as described in the premanufacture notice referenced in subpart E of this part for the substance”. In general, EPA considers the Safety Data Sheet and the Personal Protective Equipment described in the PMN to be ways of describing how the substance should be used. Does EPA just want the Safety Data Sheet to be more specific in describing how the substance is to be used?

Many thanks for your thoughts. Hope all is well.
